Pete has been teaching tennis for over 14 years to individuals and groups of all ages and all levels. As a PTR certified professional, his passion extends from ensuring 4 year olds have a great first experience to working with state and nationally ranked juniors to making sure adults have fun while improving their own style of play. Technique, footwork, positioning and how the game is played are some of Pete's favorite topics of discussion. Pete grew up playing his tennis on the east coast but moved to Colorado in 2004 to snowboard, hike, camp and enjoy being out west.

"In no other sport are the strategic possibilities so numerous, the ways to outwit your opponent so rich and varied within the accepted sportsmanlike bounds."

-Sarah Palfrey,
a clever strategist and Grand Slam winner in the 1930's and 1940's
